- Uncirculated. Nearly proof surface. A choice, purple-colored cent, 3 00 246. 1797. but has probably been cleaned. Very desirable.
- 270 247. 1797. The obverse of this cent shows only the very slightest marks of circulation. Hair lines sharp. Beautiful golden color. The reverse is very nearly as fine, but is slightly mottled in color. A very desirable piece.
- 2 25 248. 1797. Variety from last, with deep, regular milling. Barely circulated, the hair lines but slightly worn. Smooth, glossy, light olive color. The variety known as the "indented edge," having regular indentions similar to the edge lettering of the first three years.
- 6 0-0 249. 1799. Perfect date. An unusually good specimen, fine for date. Every portion distinct. The head very good, the greater part of the hair lines plain. The date strong and well struck on planchet, having been protected by an unusually strong milling. Reverse very good. One of the best I have come across for a long time
- 20 250. 1799. Perfect date. Very good impression, both obverse and reverse, but even, dark patination. The whole date well on planchet, and showing knobs to both nines.
